

## U-Pack® ffs

The U-Pack® ffs is a combination of the familiar, standard FFS film and the U-Pack®. This enables you to upgrade your FFS film and equip it with Stabilo seams, a resealable closure system, or a high-quality carrying handle. The right solution for your premium products!

### Fundamental advantages for you and your customers

- + Optimum protection of your products
- + High dimensional and general stability
- + Attractive product presentation thanks to individual design
- + Packaging can be resealed after removing the product, thereby ensuring lasting freshness and a longer shelf life
- + Clean product filling
- + Additional cost advantage compared to rigid packaging due to reduced transport, logistics, and storage effort
- + Unproblematic and efficient palletization

### Industries

**Agriculture + horticulture**

**Construction**

**Foodstuffs**

**Pet care**

**Detergents + cleaning materials**

**We support the circular economy: talk to us about single-origin and recyclable product solutions!**

**Eco up to 100** Denotes Bischof+Klein Packaging with a material recycling rate of at least 80 %.

## Size ranges (min./max.)

Tube width	Pattern repeat length	Side gusset	Reel diameter
180 – 450 mm	380 – 1,000 mm	80 – 200 mm	600 – 1,100 mm

## Product characteristics

### Material thickness

· Approx. 125 – 215 µm

### Product materials

**Various material options such as:**

- Mono and co-extrusion (PE)
- Two- or multi-ply (PET, PE, PA, PP)
- Metallized laminates (PETmet, PEmet)
- Polyolefin or single-origin laminates (OPP, OPE)
- Barrier laminates (aluminum, EVOH)

## Design features

- + Gravure or (HD) flexographic printing with up to 10 colors
- + Various lacquers
- + Colored PE
- + Code printing (promotion)
- + Viewing windows
- + Barriers
- + High dimensional stability due to Stabilo seams

## Additional equipment

- + Integrated carrying handle at the front or rear
- + Resealable closure: front zipper with easy opening function
- + Individual ventilation systems
