

Wicketed bags

Are you looking for an environmentally friendly and practical packaging solution? Our resource-saving wicketed bags are preferentially used in the hygiene market as primary or secondary packaging and ensure optimum product protection. Besides the possibility of printing advertising messages on all sides, the diverse equipment features are particularly convincing. A further plus: recycled PE material can be added to the wicketed bag, thus fostering our sustainable circular economy.

Fundamental advantages for you and your customers

- + Optimum protection of your products
- + Attractive product presentation through individual design
- + Promotionally effective coloring and printability
- + Food law conformity for packaging materials (LFGB, FDA, GB standard)
- + Low dead weight
- + Additional cost advantage compared to rigid packaging due to reduced transport, logistics, and storage costs
- + Unproblematic and efficient palletization
- + Single-origin and recyclable

Industries

Agriculture + horticulture

Hygiene

Foodstuffs

Pet care

Wicketed bags made of polyethylene are single-origin and recyclable.

Bischof+Klein produces films with recycle contents of up to 60 % using post-consumer-granules or post-industrial-granules according to consumer requirements.

Eco up to 100 Denotes Bischof+Klein Packaging with a material recycling rate of at least 80 %.

Product properties

Bag width	Bag length	Bottom gusset	Material thickness	Product colors and material
70 – 840 mm	155 – 1,020 mm	27 – 150 mm	20 – 200 µm	White, colored, or transparent mono or coex polyethylene films

Wicketed bag product range
